of Engineers®**

Special Needs and Considerations

The U.S. Army Corps of Engineers' contractor, Parsons, is conducting investigations on the areas that were once part of the Pinecastle Jeep Range, including in the residential areas.

Your safety is our highest priority. The US Army Corps of Engineers must plan for the possibility of evacuation if suspected munitions are discovered and require disposal. Please let us know if you or anyone in your home has any special needs that should be considered. This would include small children, pets, home-based business, dietary constraints or physical mobility.
